

Year 1 Computing Vocabulary

alert	menu	background	object
avatar	my work area	code	output
button	private	coding	plan
device	password	command	programmer
file name	saving	debug	properties
icon	search	event	run
log in	action	execute	computer
log out	algorithm	instruction	technology

Year 2 Computing Vocabulary

action	debug	object	internet	network
algorithm	debugging	output	personal information	search engine
background	event	properties	private information	web address
bug	execute	run	search	web page
button	implement	attachment	secure	world wide web
click events	instructions	digital footprint	sharing	web site
collision detection	interval	email	domain	
command	interaction	filter	internet	

Year 3 Computing Vocabulary

action	command	object	appropriate	reliable source	compose
alert	debug	predict	blog	vlog	email
algorithm	debugging	properties	inappropriate	website	inbox
background	event	repeat	internet	verify	password
bug	flowchart	scene	password	address book	personal information
button	implement	sequence	personal information	attachment	save to draft
Click event	input	test	permission	BCC	trusted contact
code	interval	timer	spoof	CC	
collision detection event	nesting	turtle object	reputable source	communication	

Year 4 Computing Vocabulary

action	debugging	input	attachment	spam	keywords
alert	execute	object	citation	ransomware	reliability
algorithm	design	prompt	collaborate	SMART rules	results page
background	event	predict	cookies	virus	search engine
bug	flowchart	repeat until	copyright	watermark	
button	'if' statement	repeat	digital footprint	balanced view	
code blocks	'if/else' statement	run	malware	Easter eggs	
debug	implement	adfly	phishing	internet	

Year 5 Computing Vocabulary

abstraction	event	selection	identity theft	spoof	document
action	function	sequence	malware	validity	font
algorithm	input	simplify	ownership	bulleted lists	formatting
concatenation	nesting	citation	PEGI ratings	caps lock	merge cells
debug	object	collaborate	password	captions	page orientation
debugging	output	communication	personal information	copy and paste	readability
decomposition	physical system	copyright	phishing	copyright	text wrapping
efficient	properties	Creative Commons Licence	reliable source	creative commons	word processing tool
flowchart	repeat	encrypt	SMART rules	cursor	word art

Year 6 Computing Vocabulary

action	flowchart	repeat	data analysis	secure websites	text-based adventure	Wi-Fi
algorithm	function	repeat until	digital footprint	spoof	sprite	
command	input	selection	inappropriate	approval	hub/switch	
co-ordinates	launch command	sequence	location sharing	archive	internet	
decomposition	object	simulation	password	blog	LAN (local area network)	
debug	output	tab	PEGI rating	blog post	network	
debugging	properties	timer	phishing	collaborate	router	
event	predict	variable	print screen	commenting	WAN (wide area network)	
execute/run	procedure		screen time	vlog	world wide web
